ASL Interpreters and CART provided

If you need other accommodations, please let us know.

Description:

Is Auracast the next assistive listening technology? Is now the time to request Auracast installation? What does this mean for existing hearing loops and FM/Infrared systems? This practical session will cover how to benefit from all systems, some considerations for successful deployment of Auracast and how you can help raise awareness for your needs. Practical resources and handouts will be provided.

Meet the Presenter:

Wisconsin-based audiologist Juliëtte Sterkins has 40+ years of experience in audiology, hearing rehabilitation, and assistive listening. Since 2012, she's been on her encore career as a consultant with the Hearing Loss Association of America, thanks to special grant funding. She has received several national awards for her work and serves on the boards of the HLAA State Chapter, and of HEAR-in-the-Fox Cities, a non-profit that helps pay for hearing aids for children in Northeast Wisconsin.
